

ColorCards: What's Wrong

This revised edition of the ColorCards bestseller features a new up-to-date set of photographs. Each image shows something wrong, either as it is happening or a problem about to happen. These lively and humorous images are highly motivating to students of all ages and abilities, and will help with attention and observational skills, vocabulary building, expressive language, storytelling, logical thought and problem solving.

Images include adults and children in a variety of situations, such as an upside down television, making sandwiches with photographs and playing golf with an umbrella.
