

ColorCards: Emotions

These cards have been designed to enable students to focus on the subject of emotions more easily. The clear illustrations of emotional situations encourage understanding of other people's feelings. The design allows a flexible approach and also a variety of individual interpretation and response. This card set may be worked through systematically or dipped into in a more informal way according to the needs of the students. It has the potential to illustrate many important issues surrounding the subject of emotions and feelings.

Pack contains 48 cards. All photography is clear and focussed to maximise the educational & therapeutic benefit; models are a variety of ages and from different cultures; the cards are designed to address the language and communication needs of both children and adults; ColorCards are produced to the highest standards with a wipe-clean laminated surface on both sides.
