

Table of Contents

Foreword	xv
Introduction	1
Components of the Ziggurat Model	2
Strengths of the Ziggurat Model	3
Chapter Highlights	4
1 The Context of Autism	5
Characteristics of Autism	6
Social.....	6
Restricted Patterns of Behavior, Interests, and Activities.....	7
Communication.....	8
Associated Features	10
Sensory Differences.....	10
Cognitive Differences.....	11
Motor Differences.....	13
Emotional Vulnerability.....	14
Vignettes	15
Other Conditions Associated with Autism	18
Theoretical Perspectives on Autism	21
Theory of Executive Dysfunction.....	21
Impaired Theory of Mind.....	24
Theory of Weak Central Coherence.....	27
The Interrelationships Among the Three Theoretical Perspectives.....	29
Summary	30
Chapter Highlights	30
2 Assessment	33
Functional Behavioral Assessment	34
Assumptions About FBA.....	36
Components of a Functional Behavioral Assessment.....	39
Interventions Based on Functional Behavioral Assessment.....	43

The Iceberg Analogy	44
The TEACCH Iceberg	44
The ABC-Iceberg	47
The Underlying Characteristics Checklist and the Individual Strengths and Skills Inventory	52
Using the ABC-Iceberg and the UCC.....	54
Follow-Up	64
Summary	66
Chapter Highlights	67
3 The Intervention Ziggurat: Framework for Change	69
Intervention Ziggurat	70
Sensory and Biological.....	72
Reinforcement.....	73
Structure and Visual/Tactile Supports	77
Task Demands and Positive Environment.....	78
Skills to Teach	81
Interdisciplinary Approach	83
Moving From Assessment to Intervention Design	92
Ziggurat Worksheet.....	92
Two Paths for Intervention	97
Designing the Student’s Daily Program.....	132
Strengths of the Ziggurat and CAPS Models	149
Prevention.....	149
Functional Assessment	149
Comprehensive Intervention.....	150
Systems Change	150
Summary	151
Chapter Highlights	152
4 Sensory and Biological	153
Sensory and Motor Interventions	154
Sensory Integration Approaches	155
Research Support	157
Pharmacotherapy	159
Antidepressants.....	161
Antipsychotics	163
Stimulants	165
Considerations for Incorporating Pharmacotherapy in Treatment.....	166
Other Biological Interventions	166
Application of the Ziggurat Model	167
Case Study – Steve Goes to College.....	168
Case Study – Penny and Her Insects	178
Summary	191
Chapter Highlights	191

5 Reinforcement	193
Reinforcement as an Alternative to Punishment	194
Exemplary Reinforcement-Based Interventions	195
Considerations for Incorporating Reinforcement	199
Application of the Ziggurat Model	204
Steve’s Reinforcement Interventions	204
Penny’s Reinforcement Interventions.....	207
Summary	211
Chapter Highlights	211
6 Structure and Visual/Tactile Supports	213
Video and Photography	215
Social Stories™	216
Research Support	217
Cartooning	219
Research Support	219
Structured Teaching	220
Research Support	222
Priming	223
Research Support	224
Modeling	225
Research Support	226
Virtual Environments	227
Research Support and Considerations for Incorporating Virtual Environments	228
Other Visual and Structural Supports	228
Daily Schedule	228
Mini-Schedule	229
Power Card Strategy.....	230
Personal Digital Assistant	231
Timers, T-Charts, and Checklists.....	232
Research Support	234
Application of the Ziggurat Model	235
Steve’s Structure and Visual/Tactile Support Interventions	235
Penny’s Structure and Visual/Tactile Support Interventions	238
Summary	243
Chapter Highlights	244
7 Task Demands and Positive Environment	245
Three Essential Questions	247
Answering the Questions	248
Other Task Demand Considerations.....	254
Task Demand Interventions	255
Social	255
Restricted Patterns of Behavior, Interests, and Activities	260

Communication	262
Sensory Differences.....	264
Cognitive Differences	264
Motor Differences	266
Emotional Vulnerability	268
Research Support	272
Application of the Ziggurat Model	272
Steve’s Task Demand Interventions	272
Penny’s Task Demand Interventions	275
Summary	279
Chapter Highlights	279
8 Skills to Teach	281
Social	283
Theory of Mind Skills and Analysis of Social Situations	284
Specific Social Skills	286
Considerations for Teaching Social Skills	290
Restricted Patterns of Behavior, Interests, and Activities	291
Research Support	292
Communication	293
Research Support	294
Sensory Differences	296
Research Support and Considerations for Teaching Skills to Address Sensory Needs	297
Cognitive Differences	297
Learning Disability in Math	298
Learning Disability in Reading.....	298
Differences in Executive Functioning.....	298
Other Cognitive Differences.....	299
Research Support	299
Motor Differences	300
Research Support	301
Emotional Vulnerability	301
The Social Brain	301
Emotional Consequences	302
Research Support	304
Application of the Ziggurat Model	305
Skills to Teach Interventions – Steve.....	305
Skills to Teach Interventions – Penny.....	310
Summary	319
Chapter Highlights	319

9 Pulling It All Together	321
Why Use the Ziggurat Model?	322
Strengths of the Ziggurat Model	322
General Troubleshooting	323
Assessment	325
Sensory and Biological	326
Reinforcement	327
Structure and Visual/Tactile Supports	330
Task Demands	330
Skills to Teach	331
Application	334
Troubleshooting Process – Steve	334
Troubleshooting Process – Penny.....	335
Summary	336
Chapter Highlights	337
