

*Webber® Photo Cards - Let's Name Things* contains 60 engaging photos to help your students improve naming, semantic mapping, and categorization! Use these photos during spoken or written activities. Incorporate an open-ended game board for more fun. Additional game ideas follow:

**Number Name Game** – Gather a numbered spinner or die, and shuffle all of the cards. The first player draws the top card from the deck and spins the spinner or rolls the die. The number revealed is how many things the player must name according to the card. Players receive a point for every “thing” they name. Try to beat your highest score!
