

Main Idea

1

Shark attacks are frightening. They don't happen often, but they do happen. Sometimes, sharks bite humans swimming in the ocean. Since sharks eat seals and large fish, they might mistake a swimmer as a seal. Most people fear shark attacks and are glad they rarely occur.

What is the main idea?

- a) Sharks mistake swimmers as seals.
- b) Shark attacks are rare and frightening events.
- c) Sharks bite humans swimming in the ocean.

What would be a good title for this story?

Do you brush your teeth regularly? Do you floss your teeth before going to bed? Taking care of your teeth is important. Part of taking care of your teeth involves seeing a dentist twice a year. Dentists can help you keep your teeth healthy and your gums happy.

What is the main idea?

- a) Taking care of your teeth is important.
- b) People often get nervous when they go to the dentist.
- c) No one likes to get cavities.
